What our members are saying:

"(NRSIG) has been a program that has saved us money and provided tremendous benefits from the day we joined in 2001"

Charles Abowd
Adele's, Carson City

NRSIG

NEVADA RESTAURANT SELF-INSURED GROUP

"The volume of prescription drugs being dispensed by physicians to workers' compensation (WC) claimants has risen sharply in recent years – putting upward pressure on WC costs."

National Council on Compensation Insurance
January 5, 2011

"...seeing an increase in the average duration of payments for Temporary Total Disability (TTD) payments...coincides with the onset of the recession..."

National Council on Compensation Insurance
February 15, 2011

What is happening in Workers' Comp?

The Nevada Restaurant Self-Insured Group has:

- **The CHSI Solutions Hotline** – Injured employees talk to a nurse immediately, claims managers and employers get instant notification – resulting in *lower claims frequency and costs. Only NRSIG has this service.*
- **The Client Service Center** – Nevada's leading employer support team with 15 minute service turnaround, helping employers and employees get better results.
- **Patent pending technology** that gives employers instant access to information.

Work injuries hurt employers and employees alike:

- Employees with skill and experience produce profit – when they are working.
- Covering for injured employees, hiring and training replacements, costs money.
- Poor treatment of injured employees hurts them, affects business morale and increases costs.
- Injury costs this year increase your premium for three future years.
